

# Greenwood Avenue North Street Improvements

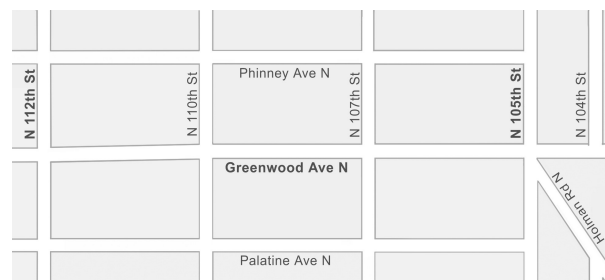

**TYPICAL ROADWAY SECTION**  
NOT TO SCALE

## DESCRIPTION

This project, located between North 105<sup>th</sup> and North 112<sup>th</sup> Streets widens Greenwood Avenue North, transforming an existing four lane roadway with no sidewalks to a five lane roadway with sidewalks and landscaping.

A center left-hand turn lane and parallel parking on both sides of the street will be provided, together with traffic signal and street lighting improvements.

The project will also include a crosswalk on Holman Road near the intersection with Greenwood Avenue North and improvements to the storm drain system.

## WHY IT IS IMPORTANT

- Improves safety on a major truck street by adding sidewalks to separate pedestrians from traffic.
- Improves road safety and access by adding a turning lane, lighting and other improvements.
- Maintains curb turn radii needed for trucks and buses to make safe turns.

## SCHEDULE

September 2006 - Design Initiated  
June 2008 - Project Design 90% Complete  
*September 2008 - Start of Construction*  
*June 2009 - Construction Complete*

*(Schedule elements in italics are projected)*
